1987 – 1991 Apprentice Electrician, Sunderland Forge Services

Director of Desco, Kevin is a very experienced engineer with particular expertise in electrical building services.

Kevin started in the industry by serving a trade apprenticeship in electrical contracting, then moved into design having gained a BEng (Hons) degree in mechanical and electrical engineering. He was a design manager for a large national engineering contractor before joining Desco in early 2000. Kevin moved quickly through the ranks to the position of Associate Director leading a design group working on a wide range of projects in a number of sectors before being promoted to Director in January 2007. Kevin takes responsibility for one of the design teams in the Sunderland office and the technical delivery of projects within the practice.
