Associate Director of Desco, Mike is a very experienced engineer with particular expertise in mechanical building services.

Mike started his working life as a trainee at an engineering contractor and moved into consulting engineering in the early 1970s; he also spent time leading a design department for a major contractor. Mike is experienced in all aspects of design and project management. He has a hands-on approach to design and leads one of the practice's design groups working on a wide range of projects in a number of sectors. Mike has particular expertise in framework agreements and continues to help develop the practice's work in this area.
